

Comprehensive Urology Care for Advanced Practice Providers: Mastering Inpatient and Outpatient Management

CME/NCPD

JUNE 11 – JUNE 12, 2026

Urologic Institute

**Fox Chase
Cancer Center**

Temple Health

Advanced Practice Providers (APPs) are essential to delivering high-quality urologic care, and this CME/NCPD program—presented by the Fox Chase – Temple Urologic Institute—offers a focused, hands-on opportunity to deepen that expertise. Participants will gain targeted updates in general urology and urologic oncology, explore evolving diagnostic and management strategies, and strengthen procedural skills through interactive workshops and simulation-based training. Led by experienced clinicians, the program equips attendees with practical knowledge, clinical confidence, and evidence-based approaches to elevate patient care across all urologic settings.

PROGRAM DIRECTORS

Andres F. Correa, MD
