

Young Adult **CME/NCPD** Cancer Symposium:

From Diagnosis
Through
Survivorship

SEPTEMBER 30, 2026

Setting the Stage:
Essential Preparation
for the Cancer Journey

 **Fox Chase
Cancer Center**
Temple Health

This two-part program delivers evidence-based education in young adult cancer care from diagnosis through survivorship. The symposium provides practical, interdisciplinary guidance for the full care team focusing on medical management, psychosocial support, fertility preservation, sexual health, survivorship, and developing young adult oncology programs.

Learn from faculty from **Fox Chase Cancer Center, Penn Medicine's Abramson Cancer Center, Children's Hospital of Philadelphia, and Shady Grove Fertility**, including physicians, advanced practice providers, nurses, social workers, rehabilitation specialists, genetics counselors, nutrition experts, and survivorship leaders dedicated to improving care for young adults with cancer.

Learning Objectives

Following participation in this activity, learners will be able to:

- Identify current trends in the incidence and clinical presentation of cancers affecting young adults.
- Recognize the unique psychosocial, reproductive, financial, and survivorship challenges these patients face.
- Apply evidence-based strategies for distress screening, fertility counseling, financial navigation, and survivorship.
- Integrate interdisciplinary, developmentally appropriate approaches into the care of young adult oncology patients across the continuum of care.

Program Directors

Christopher Cann, MD

**Diana Kott, DNP, RN,
OCN, NPD-BC**

Intended Audience

Physicians, nurses, advanced practice providers, genetics, social workers, patient navigators, rehabilitation specialists, nutrition professionals, and other allied health professionals involved in the care of young adults with cancer.
