KARL STORZ – ENDOSKOPE

MAINTAIN OPTIMAL EQUIPMENT PERFORMANCE WITH THE **stayREADY** PROGRAM

Stay Ready with Routine Preventive Maintenance Evaluations

How does the **stayREADY** program work?

1. Request a preventive maintenance evaluation from any KARL STORZ personnel. With preventive maintenance evaluations, maintain optimal performance and identify service needs before they surface in the Operating Room.
2. A certified KARL STORZ representative will come in to perform a thorough evaluation on your equipment.
3. The KARL STORZ representative will inform you if service is required on your equipment. Some services may be able to be performed onsite.
4. If service is required, approve the service activity and provide a Purchase Order, if necessary.

Contact your **KARL STORZ** representative for pricing details. For equipment covered under an existing warranty, **stayREADY** preventative maintenance evaluations are included in the purchase of the product.

It is recommended to check the suitability of the product for the intended procedure prior to use.
Please note that the described products in this medium may not be available yet in all countries due to different regulatory requirements.
