

FLEXIBLE VIDEO RHINO-LARYNGOSCOPE SLIM-DESIGN — EXCELLENT IMAGE QUALITY

The Perfect Choice for Every Site of Care

The Slim-Line video rhino-laryngoscope is compatible with three imaging platforms, including our revolutionary TELE PACK+ all-in-one compact endoscopy system. With its super-slim diameter, the flexible scope allows you to treat a wide range of patients. From the office to the bedside to the long-term care facility, the Slim-Line combines convenience and versatility with amazing image quality.

- Supports early diagnosis and intervention, including FEES
- Improves clinician experience and satisfaction
- Provides simple connection to three video platforms
- Achieves wide deflection via thumb or index-finger lever activation

KARL STORZ — ENDOSKOPE

FLEXIBLE VIDEO RHINO-LARYNGOSCOPE SLIM-DESIGN — EXCELLENT IMAGE QUALITY

The Perfect Choice For Every Site of Care

Measuring just 2.9 mm in diameter, the Slim-Line video rhino-laryngoscope from KARL STORZ is a compact, mobile, and low cost solution for video endoscopy. The Slim-Line produces a vibrant image, with intuitive control of the distal tip via thumb or index finger deflection lever activation. With a working length of 30 cm, the Slim-Line allows the physician to remain at a comfortable distance from the patient during diagnostic and therapeutic procedures.
