

# PROTECTION1® ACADEMY OF CLINICAL EDUCATION

## Accredited Clinical Education for Professionals

Key aspects of controlling and lowering the total cost of ownership of reusable surgical technology are reduction of downtime, retention of initial equipment quality, and the containment of repair costs. To effectively influence these aspects, it is important to ensure that staff members are adequately and regularly trained and educated on critical equipment care topics.

The PROTECTION1® Academy of Clinical Education is designed to educate staff representing all experience levels on topics such as device care and handling, reprocessing, emerging technologies, and service solutions.

KARL STORZ – ENDOSKOPE

# PROTECTION1® ACADEMY OF CLINICAL EDUCATION

## Accredited Clinical Education for Professionals

KARL STORZ offers a catalog of educational opportunities for healthcare professionals through the PROTECTION1® Academy of Clinical Education. The mission of ACE is to support and encourage healthcare professionals to achieve exceptional results through education.

By partnering with clinical educators, KARL STORZ will assist in identifying and providing educational programs to meet account specific needs. ACE programs enable OR and SPD staff to earn accredited continuing education units (CEU) through societies such as California Board of Registered Nurses, AORN, IAHCSMM and AST.

### ACE Program Highlights:

- KARL STORZ will work with clinical educators to identify and provide education to meet specific account needs
- Enable OR & SPD staff to earn CEUs
- ACE educational programs cover topics such as device care and handling, reprocessing, emerging technologies, and service solutions

**It is recommended to check the suitability of the product for the intended procedure prior to use.**
