Pediatric Brain Center: Emergent Care

(877) 822-4453 (877-UC-CHILD)
Providing rapid transfer for children needing emergent neuro care of any complexity

» Providing the most consistent, high-quality care for all pediatric neurologic conditions
» 24/7 direct access to pediatric neurologists and pediatric neurosurgeons, emergency referrals and transfer coordination
» Rapid transfer facilitated by our skilled pediatric transport team with deep experience in the management of complex, critically ill pediatric patients
» Transports via specialized ambulances, fixed-wing aircraft or helicopters, with helipads available at both hospitals
» Highly specialized pediatric emergency services, 24 hours a day, 7 days a week

Why Refer to UCSF for Urgent Neuro Care

» Level I pediatric trauma center in Oakland, one of six in California
