

WHAT IS TELEHEALTH?

Any way that you receive healthcare remotely is called **TELEHEALTH**

HOW DOES TELEHEALTH WORK?

A unit that monitors your therapy at home

talking to your health care professionals over the phone

reaching out to your doctor via email

Built into your **ACTIV.A.C.™ Therapy System**, is a form of telehealth, called **iOn PROGRESS™ Remote Therapy Monitoring**. It allows you and your health care team to stay connected while in your home.

FAQs

What type of information is monitored?

- Data received by your therapy unit, such as therapy unit alarms and if the therapy unit is on/off

Do I need a computer or wireless internet connection in my home?

- No, you do not need any additional equipment or internet connection

What is the cost?

- There are no additional out of pocket costs to you*

*Please refer to your Health Insurance Plan DME (durable medical equipment) benefits for specific coverage information.

Patients: It is important that you discuss any potential benefits and risks of a specific therapy with your doctor to decide whether it is right for you. Please consult your treating medical professional regarding specific questions and important information related to iOn PROGRESS™ Remote Therapy Monitoring indications, contraindications, warnings, precautions and operation.

NOTE: Specific indications, contraindications, warnings, precautions, and safety information exist for all KCI products and therapies. Prior to the use of any medical device, it is important for the provider to consult the treating physician and read and understand all Instructions for Use, including Safety Information, Dressing Application Instructions, and Therapy Device Instructions.
