Our KSZ-39316F Container System is specially designed to protect your Pediatric Rigid Bronchoscopy Instrument Sets during transport, sterilization, and storage.

- Validated and approved for steam sterilization
- Save time and money over blue wrap
- Anodized to prevent pitting and corrosion

KARL STORZ Pediatric Rigid Bronchoscopy Container System

Protect Your Pediatric Bronchoscopy Instrument Investment

The KSZ-39316F Sterilization Container System is designed to house your KARL STORZ pediatric rigid bronchoscopy instruments through transport, sterilization and storage. It offers cost-effective, hassle-free sterilization for your valuable pediatric rigid bronchoscopy instrument investment. KARL STORZ sterilization systems are made from aircraft-grade anodized aluminum to prevent pitting and corrosion. They also help eliminate the need for blue sterilization wrap, while saving time and money.
