

Ophthalmology

Staff & Services Directory

An abstract background image featuring a dense cluster of fiber optic cables. The cables are illuminated from within, creating a vibrant display of blue, green, and white light. The light rays fan out from the center, creating a sense of depth and movement. The background is dark, making the glowing fibers stand out prominently.

The Department of Ophthalmology improves lives by creating, teaching, and delivering unsurpassed innovative care in a unique integrated and collaborative patient-focused environment.

Mayo Clinic Health System

Mayo Clinic Health System is a network of clinics, hospitals and healthcare facilities in Iowa, Minnesota and Wisconsin that links care and medical expertise with Mayo Clinic.

Mayo Clinic Health System has more than 40 ophthalmologists and optometrists on staff at the following locations:

ALBERT LEA, MN

507-373-8214
Kevin D. Chodnicki, M.D.
Della K. Simmons, O.D.
Priscilla Vu, M.D.
Eric J. Youlden, O.D.

AUSTIN, MN

507-433-1884
Steven J. Engman, M.D., Ph.D.
Monica M. Loppnow, O.D.
Scott Martinson, O.D.

CANNON FALLS, MN

507-263-4221
Jonathan P. Erickson, M.D.
Jeffrey M. Ketcham, M.D.

DECORAH, IA

563-382-4279
Sunil S. Khanna, M.D.

EAU CLAIRE, WI

Mayo Clinic - Department of Ophthalmology

The Department of Ophthalmology and its over 90 faculty can trace its roots to the origins of Mayo Clinic in Rochester. Drs. Will and Charlie Mayo began performing ophthalmic surgery soon after joining their father, Dr. William Mayo, in the 1890's.

As Mayo Clinic and the Mayo Clinic Department of Ophthalmology have grown into a highly specialized, multi-disciplined integrated organization, we continue to pursue research that enhances patient care, decreases the burden of ophthalmological diseases, and leads to the development of new diagnostic, therapeutic and preventive interventions. Our patients receive coordinated multi-specialty care for complex eye diseases.

PATIENT CARE

- Over 250,000 annual patient visits
- Access to and coordination with all subspecialties at Mayo Clinic
- Pediatric and adult programs
- National and international referral center
- Practice niches complement research foci

EDUCATION

- Ophthalmology Residency Program
- Ophthalmology Fellowship Programs in Glaucoma, Medical and Surgical Retina, Neuro-Ophthalmology, Oculoplastic and Orbital Surgery, Pediatric Ophthalmology and Strabismus.
- CME/Online Grand Rounds
- Visiting Clinician/Professor Program
- Post-doctoral research fellowships
- Medical and Graduate Student Programs
- Podcast

RESEARCH FOCI

- Over 30 National Eye Institute, private foundation and intramural active grants
- Accelerated bench to bedside research models
- Single and multicenter clinical trials
- Ophthalmic epidemiology
- Active research in all ocular subspecialties
- Cornea
 - Corneal transplantation and corneal imaging
 - Fuchs endothelial corneal dystrophy
- Glaucoma
 - Novel therapeutic development
 - Mechanisms of disease and therapies
 - Artificial intelligence and visual field prediction
- Pediatric ophthalmology
 - Strabismus
 - Amblyopia
 - Cataracts
- Ocular melanoma, lymphoma & retinoblastoma
 - Novel therapeutic development
 - Understanding pathophysiology
- Oculoplastic
 - New medical therapies for thyroid eye disease
 - Patient specific models and implants in orbital reconstruction
- Neuro-ophthalmology
 - Cerebrospinal fluid pressure and eye disease
 - Imaging modalities to identify underlying causes of disease
 - Novel therapies for neuro-ophthalmic diseases
- Medical & Surgical Retina
 - Age-related macular degeneration
 - Diabetic retinopathy
- Inherited Retinal Disease
 - Retinal prosthesis
 - Vision restoration via stem cell transplantation
- Vision Rehabilitation/Low Vision
- Quality of life
- Scleral lens
