Mayo Clinic Health System

Mayo Clinic Health System is a network of clinics, hospitals and healthcare facilities in Iowa, Minnesota and Wisconsin that links care and medical expertise with Mayo Clinic.

Mayo Clinic Health System has more than 40 ophthalmologists and optometrists on staff at the following locations:

**Miguel E. Mulet, M.D.**
Division Chair, Division of Community Ophthalmology

The Department of Ophthalmology and its over 90 faculty throughout the Mayo Clinic Enterprise can trace its roots to the origins of Mayo Clinic in Rochester. Drs. Will and Charlie Mayo began performing ophthalmic surgery soon after joining their father, Dr. William Mayo, in the 1890’s.

As Mayo Clinic and the Mayo Clinic Department of Ophthalmology have grown into a highly specialized, multi-disciplined integrated organization, we continue to pursue research that enhances patient care, decreases the burden of ophthalmological diseases, and leads to the development of new diagnostic, therapeutic and preventive interventions. Our patients receive coordinated multi-specialty care for complex eye diseases.

**PATIENT CARE**
- Over 209,000 annual patient visits
- Access to and coordination with all subspecialties at Mayo Clinic
- Pediatric and adult programs
- National and international referral center
- Practice niches complement research foci

**RESEARCH FOCI**
- Over 30 National Eye Institute, private foundation and intramural active grants
- Accelerated bench to bedside research models
- Single and multicenter clinical trials
- Ophthalmic epidemiology
- Active research in all ocular subspecialties
- Cornea
  - Corneal transplantation and corneal imaging
  - Fuchs endothelial corneal dystrophy
- Glaucoma
  - Novel therapeutic development
  - Mechanisms of disease
  - Artificial intelligence and visual field prediction
- Pediatric ophthalmology
  - Strabismus
  - Amblyopia
  - Cataracts
- Ocular melanoma, lymphoma & retinoblastoma
  - Novel therapeutic development
  - Understanding pathophysiology
- Neuro-ophthalmology
  - Cerebrospinal fluid pressure and eye disease
  - Genetic predisposition of astronauts to vision impairment
  - Imaging modalities to identify underlying causes of disease
- Medical & Surgical Retina
  - Age-related macular degeneration
  - Diabetic retinopathy
- Inherited Retinal Disease
  - Retinal prosthesis
  - Vision restoration via stem cell transplantation
- Vision Rehabilitation/Low Vision
- Quality of life
- Scleral lens

**EDUCATION**
- Ophthalmology Residency Program
- Ophthalmology Fellowship Programs in Glaucoma, Medical and Surgical Retina, Neuro-Ophthalmology, Oculoplastic and Orbital Surgery, Pediatric Ophthalmology and Strabismus.
- CME/Online Grand Rounds
- Visiting Clinician/Professor Program
- Post-doctoral research fellowships
- Medical and Graduate Student Programs
- Podcast

---

Mayo Clinic is the first and largest integrated, not-for-profit group practice in the world. There are 7,000 physicians, scientists and researchers, and 64,350 allied health staff work at Mayo Clinic to ensure “the needs of the patient come first.” Mayo Clinic has campuses in Rochester, MN; Jacksonville, FL; Scottsdale/Phoenix, AZ. In addition the Mayo Clinic Health System is comprised of community based providers in locations throughout Minnesota, Wisconsin, and Iowa.
