Office of Continuing Medical Education

Diabetes Update for Primary Care Providers

WHO SHOULD ATTEND

Primary care providers including family practice physicians, internists, physician assistants, advanced nurse practitioners, nurses and other health care providers with an interest in diabetes care.

COURSE DESCRIPTION

This is a one-day course on diabetes geared towards primary care providers. There is an immense need for provider education as the incidence of diabetes in the general population reaches 10%; primary care clinics carry the major burden of these patients. Didactic lectures and interactive workshops offered in this program will provide key information on current classification of diabetes, glycemic targets, as well as effective diagnostic and management strategies using available therapeutic modalities. Important highlights of this course include an update on the cardiovascular outcome trials of pharmacologic agents for diabetes and cost-effective disease management. Offerings also include workshops which provide interactive case discussions on effective insulin use, lipid therapy, inpatient glycemic management, and newer diabetes technologies.

COURSE OBJECTIVES

Upon completion of this activity, attendees should be able to:

- Identify and appropriately diagnose the type of diabetes for any given patient.
- Recommend optimal nutritional interventions for individuals with diabetes.
- Discuss new therapeutics and older agents to treat diabetes.
- Recognize cardiovascular benefits of therapies for diabetes.
- Identify and properly manage complications in diabetes.
- Manage diabetes in a cost-effective manner.

HOTEL ACCOMMODATIONS

The Riverside Hotel
2900 Chinden Boulevard
Boise, Idaho
208.343.1871

To receive a special conference rate of \$118 per night single/double plus applicable taxes, reserve before **May 10** and ask for the “**Diabetes Update**” rate.

ACCREDITATION

Accreditation with Commendation

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
