

# THE GOLD STANDARD DOESN'T HAVE TO BE OUT OF REACH

## Introducing FLEXPack Service for FIVE Endoscopes

FLEXPack Service Agreements cover a set number of scope replacements on any breakage of covered equipment over a 1- to 5-year term. With FLEXPack, you can purchase the number of replacements you need at a discounted rate. If the number of FLEXPack replacements is exceeded before the contract term ends, simply add more at the same discounted rate.

FLEXPack options enable customers to:

- Measure and compare service on a cost-per-case basis
- Only purchase what is needed
- Manage repair budgets with predictable monthly service fees

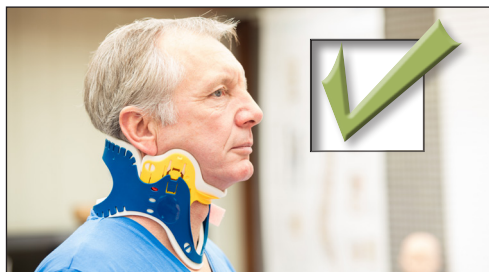

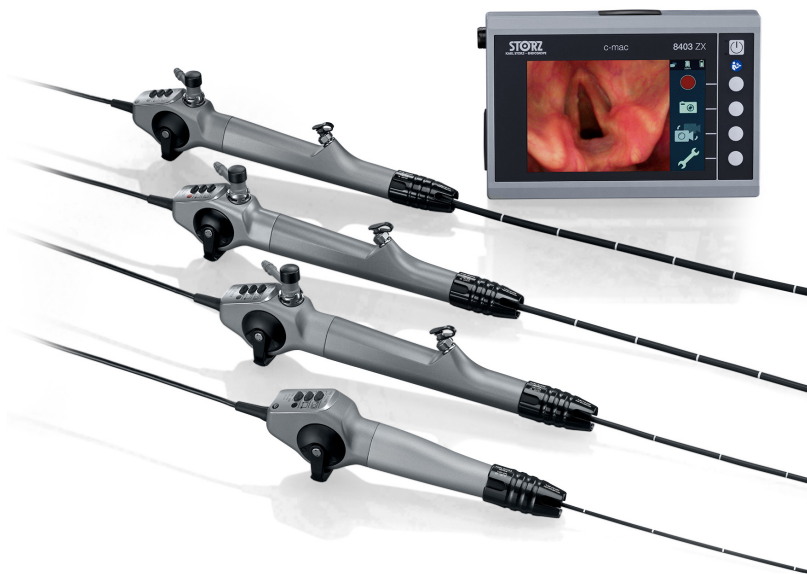

# THE GOLD STANDARD DOESN'T HAVE TO BE OUT OF REACH

## Introducing FLEXPack Service for FIVE Endoscopes

While we understand there is a place for single-use scopes in your department, we know you want to use best-in-class reusable scopes when dealing with your more difficult and complicated cases. Additionally, there are some procedures where you simply can't use single-use scopes due to their size limitations. Thus, it is critical to have access to our reusable FIVE Endoscopes. Now with FLEXPack, you don't have to choose or settle.

### The FLEXPack and FIVE scopes: A winning combination

- Our reusable FIVE scopes provide quality optics and best-in-class performance made possible with KARL STORZ Flexible Intubation Video Endoscopes (FIVE). The FLEXPack program allows you to have access to these reliable and robust scopes, when you need them.
- Ensure the benefits of maintaining the highest instrument quality—at the lowest service cost
- Adopt the Hybrid Approach with FLEXPack: reusable scopes for more specialized procedures, single-use scopes for everyday cases
- Efficiency, predictability of cost and safer patient outcomes
- FIVE scope available sizes (6.5 mm, 5.5 mm, 4.0 mm and 3.0 mm) allow you to cover a wider patient population and more procedures where single-use scopes are used
