Pediatric Neurosurgery

The Pediatric Brain Center at UCSF Benioff Children's Hospitals delivers advanced neurosurgical care using kid-friendly approaches, the latest technology and innovative techniques. Our neurosurgeons collaborate with specialists in neurology, oncology and rehabilitation to provide seamless, comprehensive care within one of the nation's premier academic medical centers.

Nationally ranked in
neurology & neurosurgery

State-of-the-art, comprehensive surgical care for pediatric neurological disorders, featuring:

- Top-tier neurosurgeons who perform hundreds of surgeries annually
- Multidisciplinary team approach across pediatric specialties
- Kid-focused facilities and equipment tailored for smaller bodies
- Advanced technology and techniques, including intraoperative MRI, neuronavigation and brain mapping
- Virtual reality tools that help children view and understand their own brains
- New 3D+ printing lab for complex surgical planning
- Active research labs investigating potential new treatments
